Context

- City of Scottsdale had a **lengthy, complex** mission statement
- *“The effective mission statement is **short** and sharply **focused**. It should fit on a T-shirt.” – Peter Drucker*
- **“Simply better service for a world-class community”**
(Dec. 2013)

Objectives

- Formalize **definition** and **attributes** of world-class community
- Evaluate each attribute for **fit** with Scottsdale
- Develop possible citywide, customer-focused **key performance indicators**

Approach

Stages

Discovery and Analysis

Definition, Attributes
and Metrics

Recommendations

Timeline

Late February – mid March

Mid March – mid April

Mid April – early May

Activity

- **Identify** key customers
- **Research** expert sources
- **Compile** and filter attributes
- **Develop** definition of the world-class community which fits Scottsdale
- **Choose** metrics for each attribute
- **Compile** comparable cities
- **Prioritize** attributes
- **Examine** actionability of recommended metrics
- **Refine** the list of comparable cities for benchmarking studies

Deliverable

- Customer Map
- “Expert Sources”
- Definition: “world-class community”
- Attributes from expert sources
- Metrics for each attribute
- Preliminary list comparable cities
- Prioritized attributes
- Source for each metric
- Availability of each metric
- List of comparable cities
- Final Presentation
Monday, May 5th at 3:00 pm

- ★★ Referred more than 7 times
- ★ Referred 4 to 6 times

Criteria for “Fit”

- **Influenceable** in the short to medium-term
- Attributes whose improvement leads to improvement in other attributes

A World-Class Community

- Supports use of natural assets, today and in the future
- Stewards human and cultural assets to grow their value
- Garners recognition as a desirable place to live and visit.

Attributes

1. Natural Assets
2. Ecological Quality
3. Cultural Assets
4. Human Capital
5. Lively People
6. Inclusiveness
7. Specific Amenities
8. Tech Leadership
9. Safety
10. Healthcare
11. Transport
12. Employment Options
13. Beauty at Night
14. Social Brand

Attribute	Rationale	Metrics
1. Natural Assets	Natural environment is “most important to quality of life” for Scottsdale residents.	a. Trails available (miles per capita) b. Preserve areas (m ² / area) c. Golf courses (number) d. Spending on parks per capita
2. Ecological Quality	“The quality of our local living environment has a direct impact on our health and well-being....satisfaction...mental well-being...recovery from the stress.”	a. “Air Quality Index” (number of good days per year) b. Maximum air pollutant concentrations c. Drinking water quality (number of incidents per year)
3. Cultural Assets	Recreation and wellness is “most important to quality of life” for Scottsdale residents.	a. Performing arts venues (seats per capita) b. Top ranked attractions (number of such museums, zoos/aquariums, art galleries, theaters, etc., MSA) c. Professional sports teams (number in MSA) d. Public spending on arts and culture (\$ per capita)

Attributes *continued*

Approach

Definition

Attributes
Metrics

Next Steps

Attribute	Rationale	Metrics
4. Human Capital	Skilled people attract more skilled people and companies.	<ul style="list-style-type: none"> a. Size of workforce (number) b. Educational attainment of workforce (median) c. Educational attainment (standard deviation) d. High worker engagement (% of workforce)
5. Lively People	A population engaged in various social and recreational activities attracts members of the “creative class”	<ul style="list-style-type: none"> a. Spending on leisure and recreation (\$ per capita) b. Participation in cultural or recreational activities (number of times per week) c. Full-time students in higher education institutions (number) d. City library loans (number per capita) e. Resident performing groups in the city (number per capita) f. Shows per year (number) g. Volunteerism (times volunteered per 6 months)
6. Inclusiveness	“Toleration for different opinions, creativity, and risk-taking” feeds innovative and entrepreneurial culture.	<ul style="list-style-type: none"> a. “Haas Inclusiveness Index” b. “Esri US Diversity Index” c. “Religious Diversity Index” d. “Bohemian Index” e. “Gay Index” or “Municipal Equality Index”

Attribute	Rationale	Metrics
7. Specific Amenities	<p>The “creative class” chooses a location “based to a large degree on their lifestyle interests and the availability of respective amenities.”</p>	<ul style="list-style-type: none"> a. Hotels, night clubs, bars, and restaurants (number per capita, variety: distribution by price and type) b. AAA Five and Four Diamond hotels and restaurants (number) c. Michelin star restaurants (number) d. “The Globe Shopper Index” e. Tourists inflow (number)
8. Tech Leadership	<p>Diverse R&D expertise is linked to higher rankings in other attributes.</p>	<ul style="list-style-type: none"> a. Innovation (number of patents per capita) b. Economic output in high-tech sector (% of total GDP) c. Workers involved in STEM (% of workforce)
9. Safety	<p>Safety is “most important to quality of life” for Scottsdale residents and many other communities.</p>	<ul style="list-style-type: none"> a. Fire response time (minutes) b. Police response time (minutes) c. Crime rate (number per capita, % of which violent) d. Identity theft consumer complaints

Attributes *continued*

Approach

Attributes
Metrics

Next Steps

Attribute	Rationale	Metrics
10. Health-care	Access to preventive health services and healthcare is “most important to quality of life” for Scottsdale residents.	<ul style="list-style-type: none"> a. Cost per visit for doctors, dentists, and optometrist (\$ average) b. Medical response time (minutes) c. Hospital beds (number per capita) d. Top-ranked hospitals (number)
11. Transport	Mercer’s City Infrastructure Ranking is measured based on “public transportation, traffic congestion, and airport effectiveness.”	<ul style="list-style-type: none"> a. Household spending on transportation (\$ per year) b. Commute to/from work (average hours per day) c. Mode share (% of all travel done via car, bike, foot, bus, taxi, etc.) d. Parking spaces (per employee, visitor) e. Utilization of [bike lanes, trails, sidewalks] (number of users per day) f. Walk Score®
12. Employment Options	Employment options help “attract talented and ambitious people as the assets that cities need to propel innovation and enterprise, thereby spurring long-term prosperity.”	<ul style="list-style-type: none"> a. Frequency of data collection (number of surveys per year) b. Unemployment rates (% of workforce) c. Incorporated entities (number) d. Gallup Payroll to Population Index e. Internship positions (number per worker) f. Worker confidence in strength of economy and availability of jobs (perception of residents)

Attributes *continued*

Approach

Definition

Attributes
Metrics

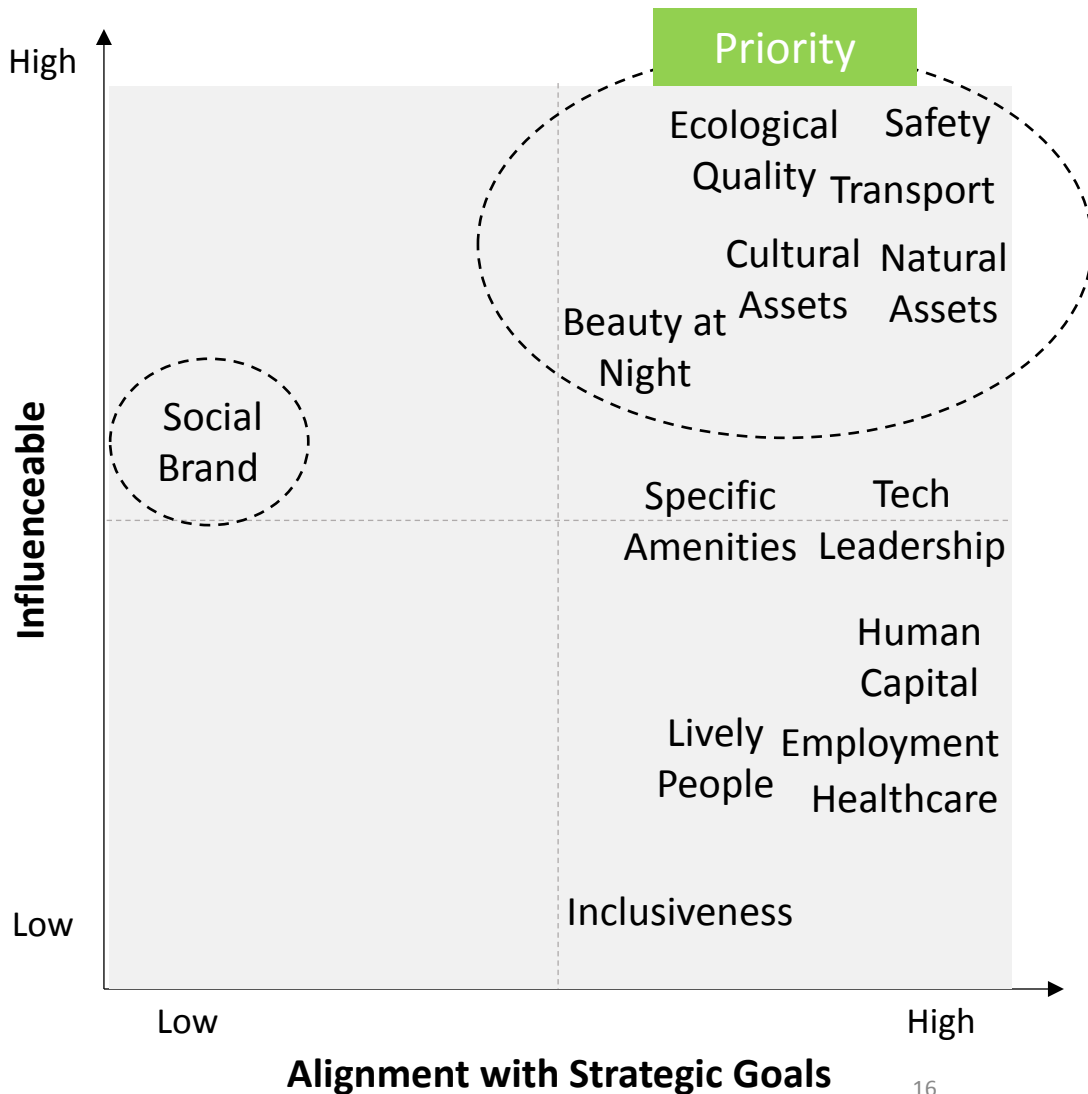

Next Steps

Attribute	Rationale	Metrics
13. Beauty at Night	A world-class city offers beauty that is greater than the sum of its parts “...when everything useful is closed, something above utility that unites all these separate features”	<ul style="list-style-type: none">a. Electricity usage in commercial properties after sunset (kWh after sunset per square mile)b. “DarknessMap” (experimental)
14. Social Brand	Leaders, citizens, and admirers of leading cities invest resources in social media and in other brand-building to influence the worlds’ perception of their cities	<ul style="list-style-type: none">a. Mentions in social media (number per week)b. Mentions outside Arizona, US, North America (number per week)c. Positivity of sentiments (proprietary score)d. Google Search Trends (percent difference versus comparable cities)

Approach to Prioritization

Plot of 14 Attributes

- ### Other Possible Priorities
- Time sensitivity (election cycle, competitors)
 - Availability of partners
 - Resources required (time, land, \$, talent)
 - Urgency to customers

Comparable Cities

Approach

Definition

Attributes
Metrics

Next Steps

All World Cities

OECD*
Countries

Scottsdale
Pop. $\pm 20\%$

Suburbs

Potential Filters

- *No national capitals*
- *Proportion of MSA*
- *Workers in hospitality (%)*
- *Municipal credit rating*

164 Cities

Comparable to Scottsdale

UK	40	Poland	5	France	2
US	32	Israel	4	Netherlands	2
Japan	26	Mexico	4	Australia	1
Spain	11	Finland	3	Ireland	1
