Methodology

- Each quarter, a random, projectable sample of adult members (18 years of age and over) of a major U.S. consumer panel is invited to participate in the Travel **USA**® survey:
 - Selected to be representative of the U.S. adult population
- ✓ **Scottsdale Visitor Research**
 - ✓ The Travel USA® program identified 983 overnight trips and 215 day trips that included a visit to Scottsdale in 2022.
 - ✓ A follow-up study was conducted to obtain additional information on these Scottsdale trips. This year yielded a sample of 525 overnight trips. For day trips, 2021 and 2022 data were merged where applicable, totaling a combined 242 day trips.
- For analysis, data were weighted on key demographics to correct for any differences between the sample and U.S. population targets.
